

# Institution of Fire Engineers Australia Branch

17 MAY, 2018

## 2018 National Forum, Canberra

The Institution of Fire Engineers Australia Branch is presenting a one day Forum on the Fire Service response to the cladding issue.

Guest panel speakers are:

- ◆ Stephen Wise – History of the cladding issues and current compliance options
- ◆ Brian Talbot – Process and progress made in development of a 'Cladding Risk Assessment Application'
- ◆ Vanessa Morris – Potential combustible cladding panels (PCCPs)
- ◆ Wade Martin – manufacturers perspective
- ◆ Andy Sharrad – What other fire services in Australia are doing

Strictly limited numbers, so register prior to the event to make sure you secure your seat.
